JOBS

Interreg 
North-West Europe
IMAGINE

European Regional Development Fund

You are between 18 and 35, a job seeker and you feel like going to another region or country for a traineeship, voluntary work or to find a job?

Visit Interreg NWE Imagine website to discover the panel of mobility offers!*

An experience in another region or abroad increases your chances of finding a job:

- learning a new language and new culture, with positive effects on your open-mindedness and adaptability.
- gaining new knowledge and abilities, as well as experience.
- perfecting your professional project and having a better idea of which orientation to take.
- expanding and diversifying your social and professional networks.

**IMAGINE aims at fighting against youth unemployment by offering job opportunities in market gardening, and more specifically to young NEETS – not in education, employment or training – from peri-urban regions of North-West Europe.*
